

REMARKS

In response to the Official Action mailed on November 3, 2005, containing a restriction requirement, the Applicant elects Species B, illustrated in Figures 4 - 8, for prosecution in the present application. Previously presented claims 62 - 65 and new claims 75 - 89 read on this species.

In this amendment, non-elected claims 54 - 61 and 66 - 74 have been cancelled. However, if the Examiner should decide to withdraw the restriction requirement, the Applicant would like to restore the cancelled claims at that time.

In addition, new claims 75 - 89 have been added to describe additional features of the embodiment illustrated in Figures 4 - 8. New claims 77 - 89 correspond to original claims 21 - 33, which were cancelled at the time of filing to reduce filing fees. Claim 64 has also been amended to simplify its language. The changes to claim 64 are unrelated to issues of patentability.

Favorable consideration is respectfully requested.

Respectfully submitted,
